README

Starting the Node Server

Open Terminal (Mac), Bash(Linux) or cmd (Windows)

```
cd click-tool-server-bonus
node server.js
```

These two commands will start the server which must be ran first
otherwise the app will not function correctly

Starting the ClickTool app

Open Terminal (Mac), Bash(Linux) or cmd (Windows)

```
cd click-tool-challenge
yarn install
yarn start
```

A window will open viewing the latest trends along with some up to the
second simulated updates

Enjoy!
